YOU'RE STEPPING ON MY SHADOW

9 sound stories conceived, recorded, and narrated by Tony Schwartz

These stories were first presented on Radio Station WNYC as part of it's early morning program, "Around New York."

It is hoped that this record will demonstrate the use of the tape recorder as a tool similar to the portable camera and that some day, soon, the term "the art of recording" will really mean something more than the technique of recording.

Tony Schwartz

Tony Schwartz, 1962

If Tony Schwartz goes out mornings wired from head to foot - -
- - if he hangs a microphone around his neck as casually and as
regularly as someone else may hang his necktie in the same place
- - one may comment, "Well, that's part of his profession." But
Tony carries around with him a forest of antennae much more
sensitive than any connected with tape recorders. His own
antennae of awareness reach out in a thousand directions; nothing
that is human escapes them. How many sounds that would go into
and out of our ears without registering -- even mechanical sounds
- - become intensely human as Tony picks them out, listens to
them, carefully frames them for us to hear. Tony's awareness
constantly seeks out and distills from the welter of the world's
noises, those elements that arouse our uproarious laughter, our
anger, our compassion. Indeed it is out of his own intense
compassion that such awareness arises, as it is out of his own
humor that he draws the recognition of those elements that make
us laugh. Tony loves music; finds that too in strange places
and brings it back for our pleasure. Above all, he loves people;
and it is people that he reveals to us forever fresh and new in
their incredible poetry.

For the guidance of the inspired ...

I would like to give you a brief picture of the types and prices of recorders available today.

PLUG-IN RECORDERS

The recorders run on house current will give you more quality per dollar spent.

<u>Weight</u>		<u>Price</u>	<u>Quality</u>
16- 50 lbs.	Economy Range	\$ 85-\$ 250.	Fair to Good
20- 70 lbs.	Medium Price	\$250-\$ 600.	Good to Excellent
26-300 lbs.	High Price	\$600-\$2500.	Excellent

SELF POWERED PORTABLES

Where the sounds to be recorded cannot be reached by long microphone or power cables, this type of recorder is desirable. Most of these recorders should only be considered for recording. The plug-in recorders are more economical and efficient for playback and editing.

BATTERY POWERED (TRANSPORT & ELECTRONICS)

<u>Weight</u>		<u>Price</u>	<u>Quality</u>
3 - 10 lbs.	Economy Range	\$125-\$ 350.	Poor to Fair
8 - 10 lbs.	Medium Price	\$300-\$ 500.	Fair to Good
5 - 18 lbs.	High Price	\$1000-\$1500.	Good to Excellent

Where you may want to save on battery cost, this type of recorder can be considered.

HAND WOUND TAPE TRANSPORT & BATTERY POWER FOR TUBES OR TRANSISTORS

10 - 16 lbs.	Medium Price	\$300-\$650.	Fair to Very Good
--------------	--------------	--------------	-------------------

MICROPHONES

It is interesting to note that recorders costing less than \$350. generally come with microphones while those above this price, do not. In most cases, the microphones supplied with recorders are not capable of reproducing the full range of the recorder. A little extra money spent on a better microphone than the one supplied with your recorder will be a worthwhile investment.

NON DIRECTIONAL (OMNI-DIRECTIONAL) & DIRECTIONAL (CARDIOD)

Poor to Good - \$3.00 - \$35.00
Good to Excellent \$35.00 to \$250.00 and over.

I believe that even the more aware and enlightened manufacturers cannot anticipate all the potential uses of their equipment. No equipment is designed for you alone. Simple thought applied to your specific recording needs may enable you to do some small things that will make your recording equipment meet your needs to a greater degree.
