Although we've all never been in the same band together, we've all played together over the years. We've always talked about doing an album together. Jerry Butler and Lonnie Wellman are one half of the Butler Brother's band and Harry Shaffer and Dave Clark are one half of the West Virginia Travelers' band, so that is how we came up with the name, Half and Half. We hope you'll like the old and new material we picked out.
