### THE MONTGOMERY MOVEMENT

THE MONTGOMERY EXPRESS is a fine group of musicians originating from Indiantown, Florida under the direction of MR. SANDY MONTGOMERY who has helped the group to become nationally known.

Mr. Montgomery is well known for his work with young people in and around his hometown. He believes that the best way to keep them out of trouble and off the street, is to keep them busy doing something useful. Like most people that try to build Talent into a saleable product, Mr. Montgomery has felt the hardships surrounding the makings of a Star. This album will tell the hard times spent trying to get it to the Market and the tireless efforts spent in composing it.

Featured singers are: Paul Montgomery and Charles Atkins. Both are blind, but that is no handicap. When you see them perform on stage, it is as if they can see everybody around them.

The Montgomery Express is a talented group best known for their writing and performing of music. This album should be an inspiration to a lot of handicapped people all over the world. It proves that anything can be accomplished if one has the desire.

Mr. Montgomery has one ambition and that is to live to see the boys become big names in the entertainment field. We join forces in praising the efforts of this man who saw fit to help some young people up the ladder of success.
