IMAGINATION AND MUSIC

MILLIONS OF MUSICIANS

A documentary of musical expression in everyday life conceived, recorded and narrated by TONY SCHWARTZ
A documentary of musical expression in everyday life conceived, recorded and narrated by TONY SCHWARTZ.

My last album "New York 19" was a study of the musical expression of the community I live in, Midtown Manhattan. In making "New York 19" I saw the community as a whole. In addition, I was aware of the personal expression of the individual. One area of this expression that I found especially fascinating was the musical urge, ability, talent, ingenuity or whatever you may call it, in people. I thought I would like to try to put some of this ocean of expression on a record for you to hear. And so "Millions of Musicians." I hope this album is enough of a sample to enable you to hear the people around you with a new awareness and enjoyment.

The first and last recordings on this record have special significance to me. The first one, of a fourteen-month-old baby, symbolizes the musical potential that a leader with imagination and creative ability can develop in a group of people.

There are two additional things I would like to mention. I very rarely go looking for material to record. I carry my recorder with me most of the time, and I find most of the material I record while going about my everyday life. The second point stems from the first. Some people say I record "off beat" material. I think my second point stems from the first.

I would like to thank Ernie Chanes, Arnold Rosenwald and Ruth and Bob Perl, Christine Dorsey, Arnold Cherr, Pat Cherr, Pat Perl, Arnold Chanes, Christine Dorsey, Arnold Rosenwald and Sophie Rosner for their help in making this record. Thanks to Joseph Carpini for the cover drawing.

Much appreciation to the Amplifier Corporation of America for the development of the Magnemite, a completely portable, lightweight recorder which makes the world your recording studio and a little hand-held box your control room. Special thanks to the millions of musicians.
